- Bootstrap

PROJECTS

FOR THE LOVE OF HIS GAME: This full stack application is for football families across the world to come together to teach children tackling techniques, workout regiments, and food nutrition. Built with AngularJS, Rails and Bootstrap.

VAGABOND: A travel site where users can post their most memorable voyage while helping others with recommendations of where to lodge and dine. A full stack application built with Ruby on Rails, Bootstrap, Devise, and Authentication for user security.

MOTIVE-ME: A full stack web application to help motivate people to live a healthier lifestyle through nutritional tips, exercise, and motivational quotes. Built with MongoDB, AngularJS, Express, Node.js, and collaborative efforts of pair-programming.

CURLS: An inspiring full stack web application where people can share their curly hair experience with others to encourage self-love, confidence, and embrace their natural curls using non-toxic products. Built with JavaScript, jQuery, Handlebars, Mongo, Mongoose, Express, and Node.js.

HANGMAN: One intriguing guessing game, where you predict the word or phrase before the hangman picture appears. This game is a front-end application built using JavaScript, jQuery, HTML, Bootstrap, and CSS.

EXPERIENCE

April 24, 2017 – July 26, 2017

GENERAL ASSEMBLY, WEB DEVELOPMENT

Completed over 500 hours, 12-week web development immersive course where I developed 5 web applications using various languages, frameworks, and methodologies.

July 14, 2007 – April 21, 2017

GWINNETT COUNTY SHERIFF'S OFFICE, ADMINISTRATIVE ASSISTANT

Processed and interpreted court documents as well as interviewed inmates to ensure they were processed into and released from the detention center properly. Reviewed forms for proper signature and ensuring fields were completed. Collected fees and processed property and bonding company bonds. Maintained the security and confidentiality of applicable information. Maintained certification with GCIC/NCIC for verification purposes and running criminal histories. Arranged with Georgia state prisons to have prisoners transported for court. Scheduled inmates for court and medical appointments. Managed local hold pick-ups from other agencies and assigned it to an individual from the team. Coordinated monthly and weekly meetings. Maintained personnel files, verified and entered over 300 timesheets. Tracked performance evaluations for the entire Sheriff's Office.

EDUCATION

July 2017
